## DevOps & Cloud Engineer

ssarkar1997@gmail.com | +91 8147109973 | Bangalore | [LinkedIn](#) | [Portfolio](#)

### PROFESSIONAL SUMMARY

---

Results-driven DevOps & Cloud Engineer with 3+ years of hands-on experience designing, automating, and managing CI/CD pipelines and cloud infrastructure on AWS. Proven track record of reducing manual effort through automation, containerisation, and infrastructure-as-code practices. Adept at collaborating across global teams (Japan, US, Europe) to deliver standardised, scalable, and secure cloud deployments.

### WORK EXPERIENCE

---

#### Nissan Digital India LLP

##### Software Engineer II

*Apr 2025 – Present | Trivandrum*

- Collaborate with Japan, US, and Europe teams to define and align DevOps practices and standards across regions.
- Architect and develop Jenkins shared libraries, enabling standardised, reusable CI/CD pipeline templates across multiple projects.
- Design and implement Infrastructure as Code (IaC) using Terraform, provisioning scalable and repeatable cloud environments on AWS.
- Integrate AWS services — ECS, Lambda, and S3 — into automated CI/CD workflows, reducing deployment friction.
- Drive adoption of pipeline-as-code practices, improving consistency and reducing onboarding time for new services.

##### Software Engineer I

*Nov 2022 – Mar 2025 | Trivandrum*

- Built and maintained CI/CD pipelines using Jenkins for both cloud (AWS) and on-premise deployments.
- Automated Jenkins pipeline creation using Python, reducing manual pipeline setup effort by 30%.
- Authored and optimised Dockerfiles for containerised application deployments, improving build consistency.
- Managed build artifacts with Nexus and enforced code quality using SonarQube and Veracode static analysis tools.
- Wrote shell scripts to automate deployments to AWS ECS and Lambda, streamlining release processes.
- Integrated Bitbucket for version control; improved branching strategies and repository management practices.
- Onboarded and configured APIGEE API gateway products, streamlining API lifecycle management for multiple teams.

#### Syndicate Auto Components Pvt Ltd.

##### Project Co-Ordinator

*Jan 2019 – Sep 2021 | Rudrapur*

- Led cross-functional teams to deliver product development milestones on schedule.
- Managed client relationships and co-ordinated project deliverables across departments.
- Maintained ISO documentation standards and supported internal audit readiness.

### EDUCATION

---

#### Centre for Development of Advanced Computing (CDAC)

*Mar 2022 – Sep 2022 | Pune*

*Post Graduate Diploma in Advanced Computing*

#### Reva Institute of Technology and Management – VTU

*2014 – 2018 | Bengaluru*

*Bachelor of Engineering, Mechanical Engineering*

## CERTIFICATIONS

---

- [AWS Certified Cloud Practitioner](#)
- [Certified Kubernetes Administrator \(CKA\)](#)
- [Liquibase Certified](#)

## TECHNICAL SKILLS

---

**Cloud & Infrastructure:** AWS (EC2, ECS, Lambda, S3, VPC, IAM, CloudWatch), Terraform

**CI/CD & Automation:** Jenkins, Pipeline-as-Code, Shell Scripting, Python

**Containers & Orchestration:** Docker, Kubernetes, AWS ECS

**Code Quality & Artifact Management:** SonarQube, Veracode, Nexus, Maven, Gradle, NPM

**Version Control & Collaboration:** Git, Bitbucket, JIRA

**Languages:** Python, Bash, SQL, Java, HTML

**API & Other:** APIGEE, React, Spring

## INTERESTS
